### CITIZENSHIP

#### Brazilian

Brazilian passport

#### Italian

Italian passport

### PROFESSIONAL SUMMARY

Software Developer with 3+ years of experience in NodeJS, Angular and Python. Specialized in building REST APIs and integrating large-scale platforms. Proficient in developing scalable web applications and implementing Agile methodologies, with a strong focus on performance optimization and seamless system integration.

### CORE SKILLS

#### Programming Languages

- JavaScript/ES6 | Web Technologies:
  - Angular + Typescript
  - Node.js | ExpressJS - NestJS
- Python
  - Flask
  - SQLAlchemy
  - Pandas

#### Databases

- SQL | Oracle SQL / SQL Server / PostgreSQL / MySQL
- NoSQL | MongoDB

### ADDITIONAL SKILLS

#### Usefull tools

- Container
  - Docker
- Versioning
  - Git / GitFlow
- BitBucket - GitHub
- Jira - Trello
- Postman
- DBDiagram

#### Software Architecture

- MVC
- Layered Architecture
- Event-driven
- RESTful APIs

#### Agile Frameworks

- Scrum
- Kanban

### PROFESSIONAL EXPERIENCE

#### DevIT Solutions

Fullstack Developer | Sep 2023 – Present

- Developed and maintained full-stack applications designed as secure access platforms with multi-level data permissions, improving data isolation and user experience across departments.
- Designed and optimized relational database models, ensuring scalability and maintainability for applications used by hundreds of users.
- Built a high-performance API Hub to integrate E-commerce platforms with Fintech services, supporting over 40,000 requests per hour and reducing manual reconciliation by 80%.
- Created and maintained SQL tables, stored procedures, functions, and packages to automate data synchronization between TOTVS ERP systems and E-commerce platforms, improving integration reliability and reducing processing time by 60%.

#### Grupo Nobre

Fullstack Developer | Jun 2022 – Sep 2023

- Developed and maintained full-stack applications using JavaScript and Node.js with SQL Server and MongoDB, improving system performance and code maintainability across educational platforms.
- Integrated REST APIs from a virtual study platform, securely synchronizing student data from the TOTVS ERP, enabling real-time access to academic information for over 5,000 users.
- Connected and consumed SOAP APIs from a virtual library service, enhancing the student portal with seamless access to digital resources and increasing platform engagement.
- Built and optimized SQL Server reports to support administrative and academic decision-making, reducing reporting time by 40%.
- Provided strategic technical insights for new software initiatives, contributing to the development of solutions that increased institutional efficiency and user satisfaction.

#### Clinical Laboratory Estrela

Intern | Feb 2020 – Nov 2020

- Performed maintenance on desktop computers including part replacements, cleaning and formatting.
- Provided assistance in a laboratory system (SMART).

### EDUCATION

#### Software analysis and development

Bachelor's Degree

UNIFAN | 2025

### LANGUAGES

#### English - EF SET Certificate (English Proficiency)

Fluent - C2 level - Nov 2023

#### Portuguese

Native
